

TECH SOLUTIONS

Introduction

Dedicated to delivering cutting-edge information and security systems, **QR Tech Solutions™**, Part of () Multipower International, was established in 2000, focusing on the Middle East.

At **QR Tech Solutions™**, we prioritize providing top-tier information and security systems alongside inclusive technical support to our esteemed clients.

We firmly believe that education is paramount to success. Hence, we emphasize offering comprehensive technical training to our clients and their technical teams. This ensures that our systems are installed to the highest standards, empowering our clients to achieve their objectives effectively.

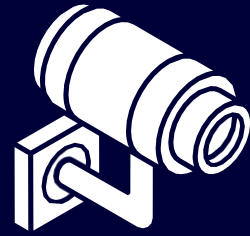

As a trusted liaison between our esteemed international partners and clients in the Middle East & North Africa, **QR Tech Solutions™** is dedicated to delivering innovative and dependable solutions that fuel progress and development.

Our mission

To deliver superior information and security systems, exceptional support, and free training, empowering our clients and enhancing their technological capabilities.

Our vision

To set the standard for excellence in information and security systems across the Middle East and North Africa, continuously innovating to meet the evolving needs of our clients and contributing to the region's technological advancement.

SAIMOS®Video Analytics provide a flexible and scalable solution based on Deep Learning for professional users in various industries.

Our artificial intelligence-driven video analytics algorithms are primarily utilized in professional environments.

All SAIMOS®Video Analytics modules are characterized by providing the highest levels of stability, accuracy, quality, and ease of configuration

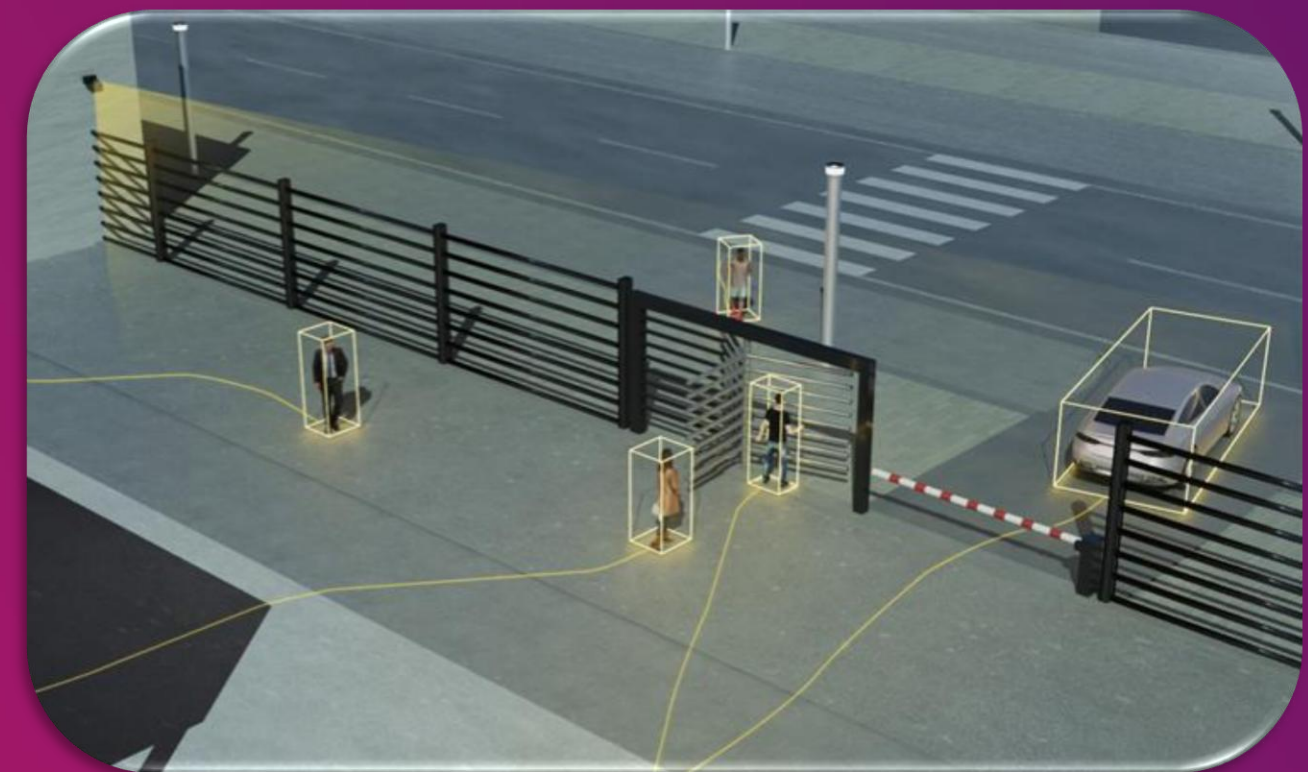

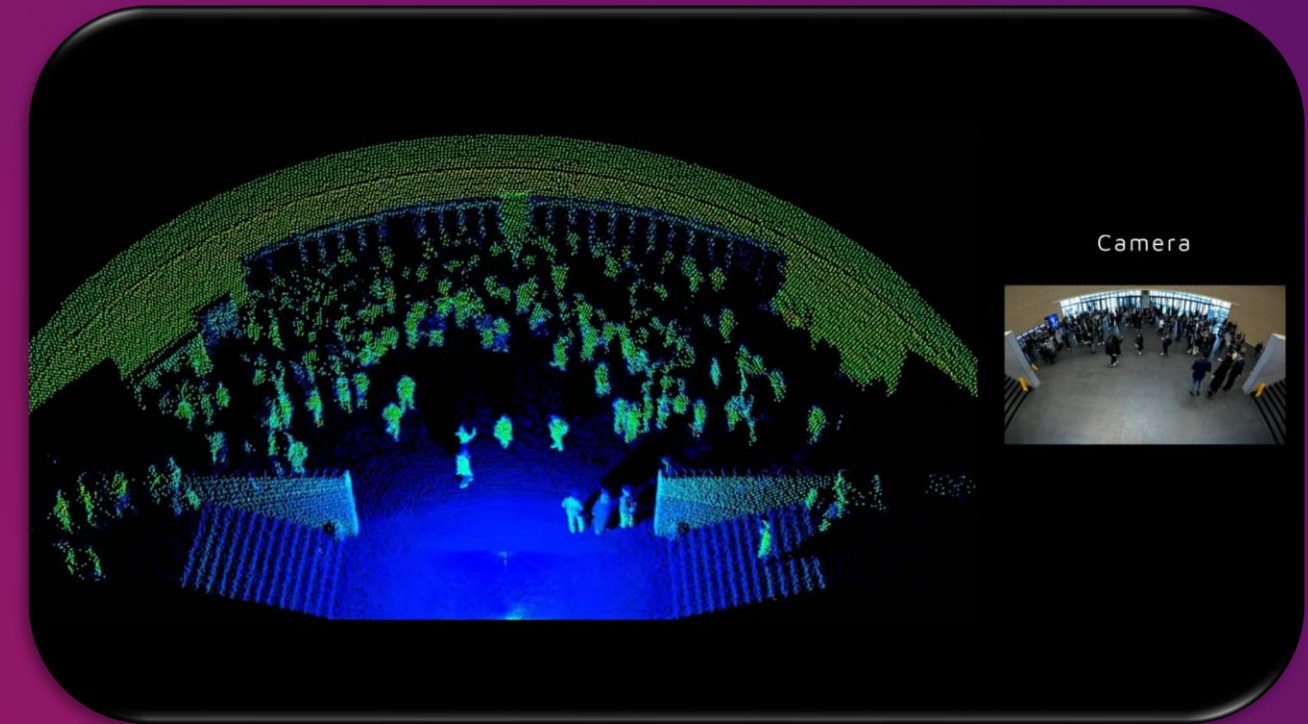

SAIMOS

LiDAR Solution

LiDAR technology uses eye-safe laser pulses to create precise 3D maps, enabling real-time object detection and tracking.

LiDAR enhances autonomous driving with accurate navigation and obstacle avoidance, while in security robotics, it provides intelligent surveillance and perimeter protection.

LiDAR is essential for building safer, smarter autonomous systems across industries.

milestonesys.com

QR is a partner with Milestone Systems, a global leader in video technology software.

Milestone product portfolio includes the award-winning XProtect® video management software (VMS), that manages all your security in one place. Build a security zone that keeps your business protected and always on.

bodet.com

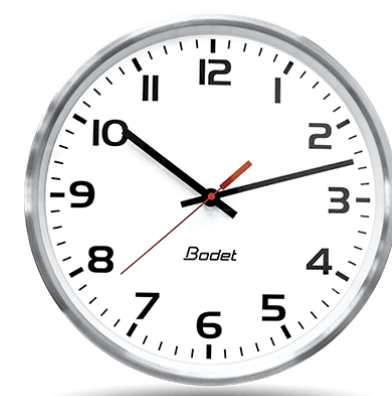

With over 40 years of experience, Bodet specializes in designing and installing analogue and digital clocks for various environments such as schools, healthcare facilities, industrial settings, stations, and airports.

Manage your employees from A to Z!

Simplify your HR Management and Access Control processes

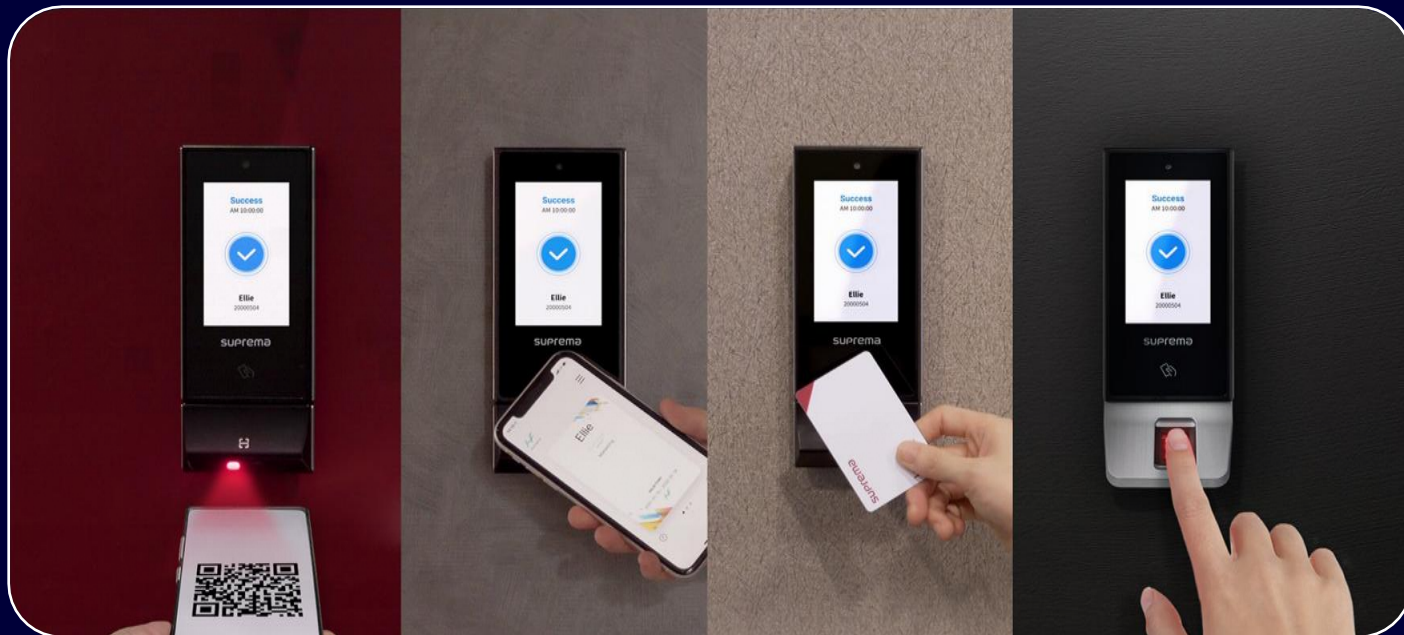

A complete HRIS software solution for managing your employees, that enables you to monitor working time, manage schedules and absences, supervise remote working, and oversee access control.

Time & Attendance Management (T&A)

Kelio's T&A software offers you an easy way to monitor working time, manage absences, and plan your teams' schedules.

Administrative HR Management

Digitalise your HR processes and centralise all of your administrative management processes, with Kelio's complete and secure HRIS.

Intercall is a leading technological manufacturer in the healthcare industry, offering essential solutions.

Intercall Nurse Call systems are designed and manufactured in the UK using hospital-grade materials for modern healthcare facilities.

Intercall nurse call systems enable residents, patients, and nurses to communicate regularly, ensuring the smooth running of the care home or hospital while helping to keep nursing staff, residents and patients safe and secure.

With three different systems to choose from: Intercall Touch, Intercall One and the Intercall legacy systems, 600 & 700, whether a residential care home or assisted living facility, or a state-of-the-art hospital, there is an Intercall nurse call system for every environment, with thousands of installations worldwide.

Intercall Disabled Toilet Alarm Kits include a ceiling-mounted pull cord, an over-door light and a push-button reset plate.

Series 600 & 700

Intercall One

Intercall Touch

Wide area Surveillance - Detect, track and classify all intrusions over 360°.

Thermal panoramic surveillance cameras.

The Spynel series includes different models, divided into 5 sensor families (Spynel-X, Spynel-S, Spynel-C, Spynel-U, Spynel-M) for short-, medium- or long-range surveillance from 0 m to 9 km radius.

securelogiq.com

Secure Logiq – High-Performance Surveillance Servers

Founded in 2011 , Specializes in high-performance servers for HD surveillance.

Expert Team – Over 200 years of combined experience in IP CCTV & server technology.
Product Range – Includes HD surveillance servers, workstations, client stations, and specialized software.

Optimized for HD Video – Designed to efficiently handle multiple HD video streams.
Sustainability Focus – Uses solar power, electric vehicles, and eco-friendly practices.
Strong Middle East Presence – Regional HQ in Dubai, serving critical infrastructure & enterprise clients.

Revolutionising Storage Capacity
High Density Servers

With up to 1.44 Petabytes of useable storage in just 4U and with 4000+mbps throughput our 4UXL server range are ideal for systems where longer archive times are required at a fraction of the price of multiple servers or direct attached storage devices.
